

For Crane AB, worker safety and health, security, quality and environment are very important factors in our vision to be a leader within the banknote industry. The above areas are the most basic components in the day to day activity for Crane AB's management and coworkers. This commitment to prevention of injury, ill health, and to the principles of continual improvement extends across all areas ensuring that we follow the company policies, laws, regulations and other requirements. We are working under an integrated management system. Through this integration, our practices in the area of worker safety and health, security, quality, and pollution prevention are evaluated, objectives set, and activity plans formulated, all with the understanding that we are never finished improving in all these areas.

Worker Safety and Health

For Crane AB it is our highest obligation to protect the safety and health of our employees. A favorable work environment is also the foundation of an attractive workplace where motivated people enjoy their work and aspire to higher levels of performance. A favorable work environment arises from knowledge and understanding of the company's vision and the definition of roles in the organization. Understanding the importance of their contribution and the possibility to enhance their competencies leads to an empowered work force.

Security

Crane AB has an obligation that security items and confidential information are protected and accounted for according to customer's requirements. This obligation will be fulfilled through support of management, through well functioning security routines, through reliable performance of security systems and through high staff competence. In our customer's interest, security is a core focus and individual responsibility for all workers as is the protection of our coworkers and facilities from external threats.

Quality

For Crane AB quality is inherent in the markets we serve and the products that we make. Quality is built into our way of working, our way of thinking, and the structure of our management systems. Consistent fulfillment the quality expectations of our customers is fundamental to our success as a company. Quality is assured through a well trained and quality oriented workforce, equipped with the right tools, processes, and methods. Quality is never as good as it can be and continuous improvement is a never ending ambition of the management system.

Environment

Crane AB will support sustainability in the long term use of natural resources and will select the best available technology that is technically and economically justified to minimize our impact on the environment. Our intention is to clearly communicate with our customers, employees, and regulatory authorities, regarding environmental aspects of our policies and operations.
